AIRLAB D30S DEHUMIDIFIER

Balanced Air. Better Living.

• USER MANUAL •

SIMPLY BETTER AIR

Congratulations on taking a meaningful step towards a more comfortable living environment with your Velta AirLab D30S Dehumidifier.

In Malaysia's climate, excess humidity is often the hidden cause behind discomfort – from damp smells and sticky air to mould growth and poor air quality.

The AirLab D30S is designed to do more than just remove moisture. It helps create a balanced indoor environment where the air feels lighter, cleaner, and more comfortable every day.

1

SMART HUMIDITY CONTROL

Maintains optimal indoor humidity automatically, reducing dampness and improving comfort.

WHAT MAKES AIRLAB D30S DIFFERENT?

2

DUAL FUNCTION: DEHUMIDIFY + PURIFY

Combines moisture control with air filtration to support a cleaner indoor environment.

3

BUILT FOR EVERYDAY LIVING

From bedrooms to laundry drying, the unit adapts to your daily needs with multiple modes.

4

MINIMAL MAINTENANCE

Simple filter cleaning and easy water tank handling for long-term convenience.

SMART OPERATION & INTUITIVE DESIGN

AirLab D30S is engineered with practical features to simplify your daily use:

HUMIDITY LEVEL CONTROL

Set your preferred humidity level (40%–80% or continuous mode).

MULTIPLE OPERATING MODES

- ECO Mode
- Dehumidifier Mode
- Purification Mode
- Laundry Mode
- Sleep Mode
- Auto Mode

AUTO STOP PROTECTION

Stops automatically when the water tank is full.

COMPRESSOR PROTECTION SYSTEM

Built-in delay protects internal components from frequent restarts.

SMART HUMIDITY INDICATORS

- Red: High humidity
- Yellow: Moderate humidity
- Blue: Comfortable humidity

WIFI CONNECTIVITY

Control your unit remotely via mobile app.

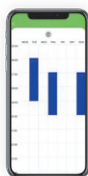

Control And Monitor

Your dehumidifier in real time from anywhere, with live humidity data.

Smart Notifications

Receive alerts when the water tank is full, or your desired humidity level is reached

Weekly Schedule

Set up personalised calendar routines.

Smart Settings

Program to auto-adjust based on temperature, humidity, or time of day.

BENEFITS OF A CONTROLLED ENVIRONMENT

Designed to improve everyday comfort at home:

- Reduces dampness and musty odours
- Helps clothes dry faster indoors
- Creates a more comfortable sleeping environment
- Supports cleaner air with reduced dust
- Helps prevent mould growth
- Protects furniture and walls from moisture damage

HOW TO USE

1

Place the unit on a flat, stable surface

2

Ensure at least 30cm clearance around the unit

3

Plug into power supply

4

Press Power to start

5

Select your preferred mode

6

Adjust humidity level if needed

The unit will begin operating immediately.

CONTROL PANEL GUIDE

Power

Turn the unit on or off

Speed

Adjust fan speed (Low / Medium / High / Auto)

Operation

Select ECO / Dehumidify / Purify

Humidity

Set target humidity level

Timer

Set auto shut-off (0-9 hours)

Swing

Adjust airflow direction

Mode

Manual / Laundry / Sleep / Auto

Light

Adjust display brightness

WATER COLLECTION SYSTEM

The AirLab D30S extracts moisture from the air and collects it in the water tank.

- The unit will stop automatically when the tank is full
- Empty and reinstall the tank properly to resume operation

CONTINUOUS DRAINAGE (OPTIONAL)

A hose can be connected for continuous drainage if needed.

CARE & MAINTENANCE

AIR FILTER

- Clean every 2 weeks
- Use vacuum or rinse with water
- Ensure fully dry before reinstalling

HEPA Filter

- Clean or replace when prompted

UNIT CARE

- Wipe with a soft, damp cloth
- Do not use chemicals or immerse in water

FREQUENTLY ASKED QUESTIONS (FAQ)

Q Why does the unit stop automatically?

A The water tank may be full or not properly installed.

Q Why is humidity not decreasing?

A Ensure doors and windows are closed and settings are correct.

Q Can I run it overnight?

A Yes. Use Night Mode for quieter operation.

Q Why is there a delay before it restarts?

A This is a built-in compressor protection feature.

TROUBLESHOOTING

Issue	Possible Cause	Recommended Action
Unit not working	No power	Check power connection
Weak performance	Dirty filter	Clean filter
Stops frequently	Tank full	Empty tank
Noise	Uneven surface	Reposition unit

WARRANTY & SUPPORT

All Velta AirLab D30S units are backed by a 24-month warranty covering manufacturing defects under normal home use.
