Hhuhu

HYDROGEN MILKER

HYDROGEN WATER GENERATOR

• USER MANUAL •

Velta

INTRODUCTION

The **Velta Hhuhu Hydrogen Milker** is a hydrogen water generator designed to produce hydrogen-rich drinking water using **micro- and nano-bubble hydrogen technology.**

During fresh hydrogen generation, the water may appear **milky-white.** This appearance fades naturally as hydrogen is released and is a normal part of the process.

WHAT'S INCLUDED

- Velta Hhuhu Hydrogen Milker (Main Unit)
- Removable Water Tank (3,000 ml)
- Power Adapter
- User Manual

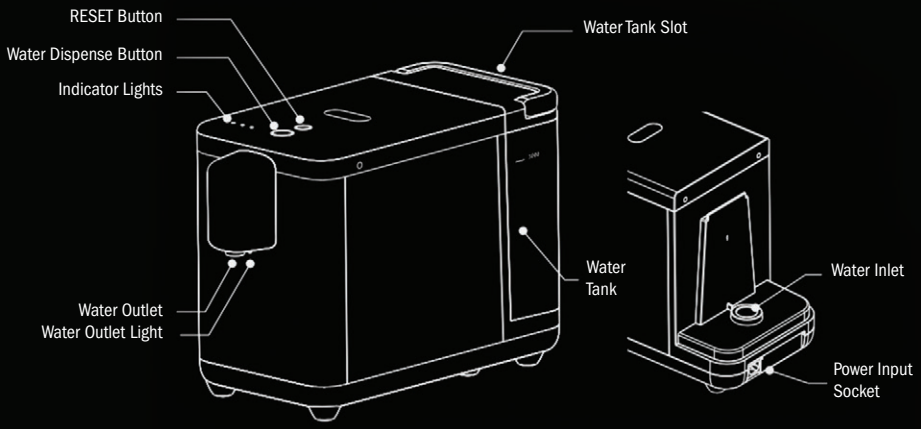
If any item is missing or damaged, please contact Velta Malaysia.

PRODUCT OVERVIEW

MAIN UNIT
Water Dispense Button
RESET Button
Indicator Lights
Water Outlet

WATER TANK
Removable water tank for easy refilling and cleaning
Made from food-grade material

REAR SECTION
Water Tank Slot
Power Input Socket



BUTTONS & INDICATOR LIGHTS

INDICATOR LIGHTS

Power Light
The machine is connected to power

Operating Light
Hydrogen water is being produced

Red Water Indicator
Low water level or air detected

BUTTONS

Water Dispense Button
Start or stop dispensing

RESET Button
Clears air from the water line

WATER REQUIREMENTS (IMPORTANT)

For best performance, use:
Purified or RO water only
TDS ≤ 5
Room temperature water (15–30°C)

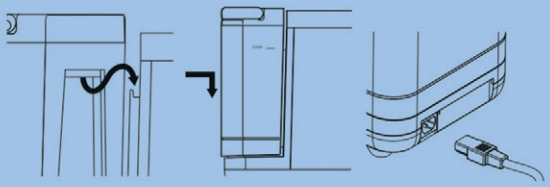
Do not use tap water, mineral water, alkaline water or any other liquids. Using unsuitable water may affect performance and warranty coverage.

Minerals and dissolved solids may reduce hydrogen efficiency and affect internal components.

HOW TO USE

Before First Use

- Insert the water tank firmly into the back of the machine
- Connect the power adapter
- Fill the water tank with purified or RO water



DISPENSING HYDROGEN WATER

- Place a glass under the water outlet
- Press the Water Dispense Button
- Water dispensing stops automatically after approximately 15 seconds
- Press the button again to stop dispensing early if needed.

UNDERSTANDING THE WHITE APPEARANCE

Fresh hydrogen generation may cause the water to appear **milky-white.**
This is caused by **micro- and nano-sized hydrogen bubbles** suspended in the water.
Nothing is added. This is expected behaviour.

Best time to drink:
When the water appears milky, hydrogen activity is at its peak.

RED WATER INDICATOR

The red indicator may appear when:
The water tank needs refilling
Air has entered the internal water line
Refill the water tank if needed. If the indicator remains on, perform **RESET.**

RESET (AIR PURGE FUNCTION)

Use RESET if:
Water flow becomes weak
Hydrogen appearance is reduced
Red indicator remains on despite sufficient water

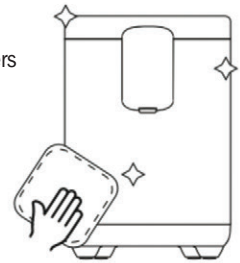
HOW TO RESET

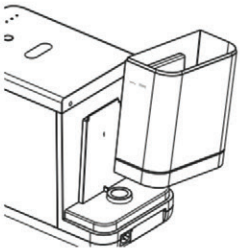
Place an empty cup under the water outlet
Press and hold the **RESET button** for 2 seconds
Allow the process to run for approximately 20 seconds
Resume normal use
Water released during RESET is safe to drink.

CLEANING & MAINTENANCE

MAIN UNIT

Wipe with a soft, damp cloth
Do not use alcohol, solvents, or abrasive cleaners





WATER TANK

Wash with mild detergent
Rinse thoroughly
Allow to air-dry before reinstalling
Recommended cleaning frequency: once every 2 weeks

TROUBLESHOOTING

Issue	Possible Cause	Recommended Action
Weak water flow	Air in system	Perform RESET
Reduced hydrogen appearance	Air in system	Perform RESET
No water dispensing	Power or tank issue	Check power and tank position
Water leakage	Tank not seated properly	Reinstall water tank securely

If the issue persists, please contact **Velta Malaysia**

SAFETY INFORMATION

- For indoor household use only
- Do not disassemble or modify the machine
- Place on a stable, dry surface
- Keep away from heat and direct sunlight
- Disconnect power if not used for long periods
- A slight operating sound or vibration is normal.

PRODUCT SPECIFICATIONS

Specification	Details
Product Name	Hhuhu Hydrogen Milker
Model Number	MK001
Country of Origin	Made in Taiwan
Suitable Water Quality	Distilled Water / RO (TDS < 10)
Suitable Water Temperature	Room Temperature Only
Power Supply	100V – 240V (Universal Voltage)
Power Consumption	200W
Frequency (Hz)/Current (A)	50/60Hz/2.6A
Product Weight	< 9 kg
Water Tank Capacity	3000 ml
Product Dimensions	223mm(W)×326mm(H)×476mm(D)

WARRANTY & SUPPORT

2-year warranty under normal household use
Covers manufacturing defects

Not covered:
Improper use or unsuitable water
Unauthorised repair or modification
Normal wear of consumable components

For servicing, warranty or product assistance, please contact **Velta Malaysia.**
